

EZ PANEL POOL™
above, semi & in-ground

GT 1100 model

Semi in-ground

Versatility Redefined

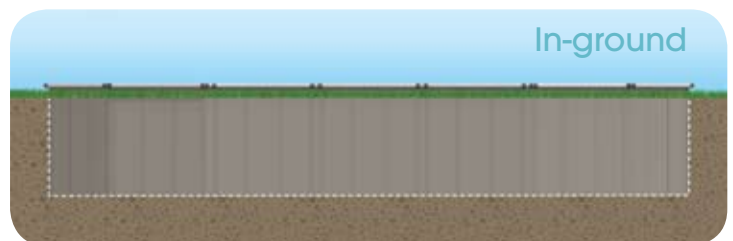

**no pool looks like it
no pool performs like it**

There's simply no pool like the GT 1100 EZ Panel Pool™. No in-ground pool so affordable. No semi in-ground pool so adaptable to the terrain. No aboveground pool so strong and durable, so attractive, or so quick and easy to install.

The EZ Panel Pool™ is all three!

Whether you choose an above, semi or in-ground pool installation, an investment in an EZ Panel Pool™ is one that will enhance your home, your backyard, and the pleasure you and your family find there for years and years to come. So, when the time comes to choose a pool, the choice is also easy.

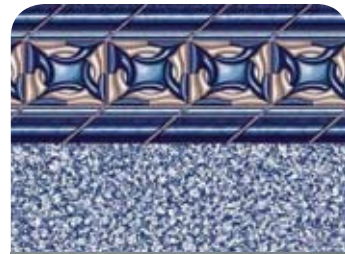

relax

Where beauty meets versatility

The GT 1100 EZ Panel Pool™ is beautifully designed and crafted to compliment your home and yard. It's made strong, in the U.S.A., using unique engineering technology and the finest marine grade materials. From its extra-heavy extruded aluminum panels to its uniquely versatile design, the EZ Panel Pool™ speaks of enduring quality and up-scale aesthetic appeal.

- No screws, straps or tubing are visible.
- It won't rust or tarnish.
- It resists the worst weather extremes.
- It's virtually maintenance-free, and it's hassle-free.

There's a lot to love about the EZ Panel Pool™ and our factory pre-assembled aluminum deck and fence kits. See your dealer for full details, and ask about options like environment-friendly, energy-saving, heat-retaining panels.

The premium *Metal Diamond* pattern liner makes the EZ Panel Pool™ as attractive inside as it is on the outside.

So versatile

Install aboveground or in-ground – or even semi in-ground, a feature that makes the EZ Panel Pool™ ideal for slopes. No pool comes in so many round and oval sizes.

So durable

Strong, extruded aluminum resists oxidation, and is non-corrosive. The EZ Panel Pool™ is also designed to withstand the most extreme weather climates.

So easy to install

Not only will you save money with our quick installation, you'll get to your fun faster!

54" panels

Our panels give you a deeper swimming pool. Each panel is made from extra-heavy duty 100% aluminum extrusions that are welded for superior strength and rigidity.

The EZ Lock System

No pool is easier, faster, or less expensive to install thanks to the EZ Lock system. Aluminum rods are inserted into the hinge to lock the panels together. The panel is then locked in place by our Diameter Lock system. All fasteners are made from aluminum for superior performance.

Premium top ledges

Substantial in both look and feel, broad 7" aluminum top ledges are powder coated and baked to a durable, resilient pearl finish that keeps its good looks. Where ledge sections meet, elastomer cover ledges snap on for a quality finish.

The finishing touch*

Handsome decorative panels hook onto the pool exterior. All corners and junctions are covered to complete the pool's beautiful appearance.

* For aboveground and semi in-ground models only.

The space-saving Slimline Oval

With its invisible buttress system, our EZ Panel Slimline Oval saves space in your yard while giving you the length you need to swim laps. Its unique technology requires no lateral support beams, adding sleek good looks to space-saving design. If you have a grade to contend with, you can really optimize your yard with a semi in-ground installation.

An optional deep end

Along with the EZ Panel Slimline Oval comes an optional deep end section for the features of a traditional in-ground pool without the expense.

60-year warranty

The components of your EZ Panel Pool™ have been crafted using the best materials and manufacturing methods. This quality allows us to offer you a generous 60-year warranty, guaranteeing that your investment in backyard fun will be backed by years of experience, dedication to product performance and commitment to your satisfaction.

water safety

Your EZ Panel Pool™ will provide years of pleasure for you and your family, but please remember to play safe. We strongly recommend that you implement and enforce the following water safety rules:

- NEVER jump or dive into any swimming pool.
- Maintain constant adult supervision when children are in or near any body of water.
- Read all of the safety, installation and maintenance information contained in the EZPanel Pool™ instruction manual and water safety brochure before you start installing your pool.
- Ask your city, town or county about any specific rules and regulations that apply to your EZ Panel Pool™.
- Follow the EZ Panel Pool™ instruction manual and maintenance instructions.
- Never remove applied or posted safety stickers or signs from your pool or pool area.

- Barriers to prevent unsupervised access, especially by young children, should be built, installed and checked on a regular basis to ensure they are in good working order. All barriers must comply with local and national codes and it is up to the home owner to check on these codes and comply with them.
- Inspect your EZ Panel Pool™, barriers, alarms, and other related equipment on a regular basis to ensure they are in good working order and that they are safe.

EZ Panel Pool™ installation, maintenance and safety manuals contain detailed tips and recommendations. They must be read, followed and applied on a regular basis, as they will prevent unnecessary accidents and ensure many summers of pleasant and safe family fun.
